# ACCIDENT INSURANCE

We have never been as active as we are now. Regardless of whether you injure yourself while renovating the house, on a long hike or by slipping on the street, it is a good idea to have accident insurance. This pays you compensation if you are hospitalised or suffer permanent injuries.

# WHY OUR ACCIDENT INSURANCE?

Our insurance applies in the event of accidents and includes compensation for various events in life – both large and small. This can be anything, from you being hospitalised for a couple of days to injuries that become permanent.

## HERE ARE SOME EXAMPLES OF HOW OUR INSURANCE CAN HELP

- SEK 400 per day if you are hospitalised
- SEK 500 for emergency hospital stays
- Up to SEK 1,500,000 in the event of a permanent injury.

You can choose an amount insured that suits your needs and your wallet – SEK 500,000 kronor, SEK 1,000,000 or SEK 1,500,000. The amount insured then determines how much compensation you can receive in the event of a permanent injury.

You can take out this insurance policy from the age of 18 and it is valid for the rest of your life.

## DIFFICULTY CHOOSING? WE WILL HELP YOU!

It can be difficult to choose an insurance policy, and it is also important that you understand what is included and how it applies. So don't hesitate to contact us and we will help you and tell you more!

For those who want more comprehensive insurance cover, we also have a health and accident insurance policy that is available for those aged 18 to 55.

See our insurance solutions, read full terms and conditions, calculate prices and find your nearest Dina company at [www.dina.se](http://www.dina.se).
